PROFESSIONAL SUMMARY

AI Engineer Experience in AI Automation Multi- Agent System and Agentic AI with a background in finance, audit and data analytics. Builds multi-agent systems, document-processing agents and automated data pipelines using Python, Google ADK and Gemini for business workflows including invoice auditing, KPI analysis and executive reporting. Combines 3 years of audit and accounting experience across pharmaceutical, FMCG, manufacturing and financial services clients with hands-on AI engineering, SQL and Power BI. Focus areas: AI automation, AI solutions, Agentic AI, Generative AI and AI business analysis.

TECHNICAL SKILLS

AI & Agentic Systems: Google ADK, Gemini, multi-agent systems, AI agents, AI automation, prompt engineering, LLM integration, human-in-the-loop risk routing, Claude Code, FastAPI, n8n

Programming & Data: Python, SQL, data extraction and automation, data pipelines, BigQuery, GA4, advanced Excel

Analytics & Finance: Power BI, financial analysis, KPI reporting, variance analysis, dashboard development, financial modelling, management reporting, trend analysis, A/B testing

Audit & Controls: Statutory and internal audit, risk assessment, internal controls, compliance, account reconciliation

Currently Strengthening: RAG and vector databases, LangChain/LangGraph, cloud deployment (AWS/Azure/GCP), Make/Zapier, Apache Airflow, LLM evaluation and guardrails, Docker

AI PROJECTS & ANALYST PROJECTS

AI Invoice Audit Agent | *Google ADK, Gemini, Python*

- Built an AI agent to automate invoice data extraction, purchase-order matching, vendor verification and compliance checks.
- Designed risk-flagging logic to route high-risk invoices to human reviewers, applying audit-control principles to an AI workflow.

Fin Sight AI – Financial & Business Performance Analyst | *Google ADK, Gemini, Python*

- Built a multi-agent system that audits datasets, calculates KPIs, analyses performance variances and generates executive-ready PDF reports.

Automated Data Pipelines | *Python, SQL, n8n, BigQuery, GA4*

- Built pipelines to automatically extract and consolidate data from multiple sources for analysis and reporting.

E-Commerce Business Analysis

- Analysed 3 years of data covering 3,500 orders, $10.67M in revenue and $1.84M in profit; delivered regional, product and margin analysis to inform pricing, inventory and customer-retention decisions.

Warehouse and Retail Sales Performance – Power BI

- Built a dashboard covering sales, supplier performance, product categories and warehouse transfers; used multi-year trend analysis to identify sales dependency, category concentration and supplier risks.

PROFESSIONAL EXPERIENCE

Auditor and Accounting | Hanish Chaudhary and Associates

Client portfolio: Ferrero Rocher, Voltas Beko, Emcure Pharmaceuticals, Gennova Biopharmaceuticals, Zuventus Healthcare, Lupin, Pfizer Limited, Bajaj Electricals, Bajaj Finance, Syngenta and Wagh Bakri

- Conducted statutory and internal audits across pharmaceutical, FMCG, manufacturing and financial services clients, reviewing financial statements, ledgers and supporting documents for accuracy and compliance.
- Analysed financial and transactional data in Excel to identify discrepancies and improve audit workpaper accuracy; this experience informs invoice-audit and finance-automation projects.
- Performed journal-entry verification, ledger scrutiny, bank and account reconciliations, and trial-balance reviews.
- Evaluated internal controls and compliance with statutory and accounting standards, documenting risks and observations for senior reviewers.
- Supported month-end and year-end accounting and prepared audit-ready financial statements, schedules and working papers.

EDUCATION & CERTIFICATIONS

Bachelor of Business Administration (BBA) – Jagannath Institute of Management Science (JIMS VK2)

US CMA (Certified Management Accountant) – Currently pursuing

- 5-Day AI Agents: Intensive Vibe Coding Course – Google
- Google AI Essentials
- Google Prompting Essentials
- Generative AI Mastermind – Outskill
- Data Analytics Essentials – Cisco Networking Academy
- SQL – Simplilearn
- Finance – IIM Ahmedabad
- Equity Stock Market – IIM Bangalore

ACHIEVEMENTS

- Second place, Stock Market Competition, JIMS University.
- Published business analyses and company insights on LinkedIn.
